# Blueprint for a Safer Economy

Source: <https://covid19.ca.gov/safer-economy/>

## Current tier assignments as of March 9, 2021

Data is reviewed weekly and tiers are updated on Tuesdays. At a minimum, counties must remain in a tier for at least 3 weeks before moving to a less restrictive tier. Counties must meet the next tier's criteria for two consecutive weeks to move to a less restrictive tier.

## Current tier assignments as of 3/9/2021

Data is reviewed weekly and tiers are updated on Tuesdays. A county must remain in a tier for at least 3 weeks before moving to a less restrictive tier. Counties must remain in a tier for two consecutive weeks to move to a less restrictive tier.

### County risk level

**WIDESPREAD**

Many non-essential indoor business operations are closed

**SUBSTANTIAL**

Some non-essential indoor business operations are closed

**MODERATE**

Some indoor business operations are open with modifications

**MINIMAL**

Most indoor business operations are open with modifications

### Adjusted case rate\*

7-day average of daily COVID-19 cases per 100K with 7-day lag, adjusted for number of tests performed

**More than 7.0**  
Daily new cases (per 100k)

**4.0 – 7.0**  
Daily new cases (per 100k)

**1.0 – 3.9**  
Daily new cases (per 100k)

**Less than 1.0**  
Daily new cases (per 100k)

### Positivity rate\*\*

7-day average of all COVID-19 tests performed that are positive

**Entire county**  
**More than 8.0%**  
Positive tests

**5.0 – 8.0%**  
Positive tests

**2.0 – 4.9%**  
Positive tests

**Less than 2.0%**  
Positive tests

### Health equity quartile

**5.3 – 8.0%**  
Positive tests

**2.2 – 5.2%**  
Positive tests

**Less than 2.2%**  
Positive tests

## San Mateo County COVID-19 Data Dashboard

Data up to and including March 8, 2021

Select time frame for case data:

Last 30 Days

Historical

Total Cases  
**39,184**

R-eff  
**0.77**

Total Cases by Episode Date

Total Deaths  
**525**

Deaths by Sex

Cases by Sex

- R-eff is the average number of people an infected person will infect  
- Represents rate at which COVID-19 is spreading  
- Value less than 1 means decreasing spread  
- Value greater than 1 means increasing spread  
Source: CalCat ensemble for 2/28/2021, accessed on 3/3/2021

Cases by Age Group

Cases by Race/Ethnicity

Cases by Episode Date

Deaths by Age Group

Deaths by Race/Ethnicity

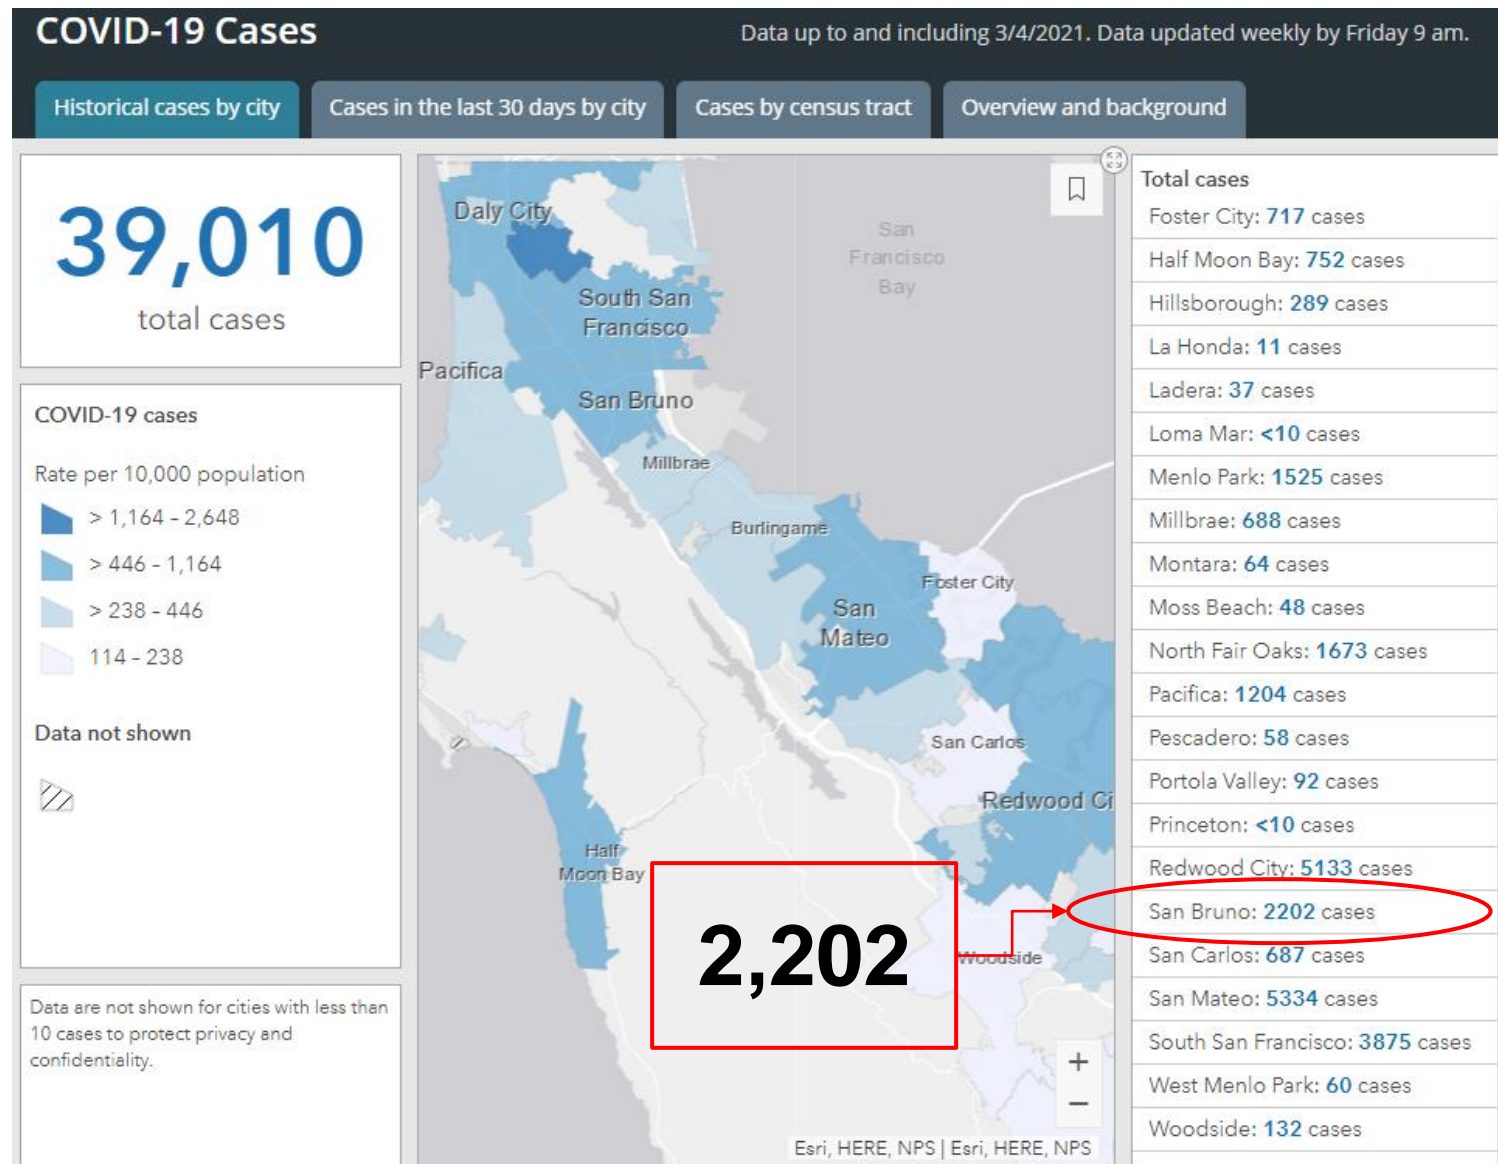

Because of limited testing capacity, the number of cases detected through testing represents only a small portion of the total number of likely cases in the County. COVID-19 data are reported as timely, accurately, and completely as we have available. Data are updated as we receive information that is more complete and will change over time as we learn more. Cases are lab-confirmed COVID-19 cases reported to San Mateo County Public Health by providers, commercial laboratories, and academic laboratories, including reporting results through the California Reportable Disease Information Exchange. A lab-confirmed case is defined as detection of SARS-CoV-2 RNA in a clinical specimen using a molecular amplification detection test. Cases are counted by episode date; episode date is defined as the earliest of: case symptom onset date, sample collection date, date of laboratory result, or date of death. Deaths reported in this dashboard include only San Mateo County residents; death data last updated March 8, 2021.

3/8/2021

Individuals Who Completed  
Vaccination Series

# 76,262

% Completed Vaccination Series

Total Vaccine Doses Administered

# 254,229

Vaccinations administered as part of federal health care organizations or programs such as the Department of Veterans Affairs (VA) report to federal immunization systems, may not report into CAIR2, and may not be included in vaccination numbers on the dashboard. On February 2, 2021, CDPH reported a possible undercount in the number of vaccinations administered to county residents for a portion of records submitted to CAIR2; corrections to previously reported vaccination data are underway.

## COVID 19 Vaccinations of San Mateo County Residents

Vaccinations for San Mateo County residents are reported to SMC Public Health via the California Immunization Registry (CAIR2). COVID-19 vaccine administration data are reported as timely, accurately, and completely as data become available. Previous data will change as new and updated data are received.

## San Mateo County COVID-19 Vaccine Dose Allocation

Last Updated: March 4, 2021

**SAN MATEO  
COUNTY HEALTH**  
All together better.

\*Data for MCEs and Federal Programs come from State reports on doses delivered and may not include all sources of vaccine available to those programs.

\*\*Populations eligible for vaccination may differ by program based on vaccine availability and Federal, State, and County guidance.

- This dashboard provides a summary of vaccine doses delivered to San Mateo County Health and partners. Vaccine is allocated for those who live in OR work in San Mateo County. As such, this dashboard cannot be directly compared to the Vaccination Totals dashboard, which reflects only those who live in San Mateo County.

- Numbers in this dashboard represent a combination of first and second doses; only two-dose vaccines are currently approved and available. Data are reported as timely, accurately, and completely as possible; previous data will change as new and updated data are received.
